Irrespective of the hard times the pace of academic and co-curricular activities remained in full swing. The challenge was accepted and teaching was conducted virtually. A number of International & National level Webinars, Talk Shows, Workshops, and various competitions were conducted. To improve the competencies and technical skills of the faculty members and the students, MOUs are signed with ICT Academy and other agencies since then training programmes were conducted. Placement and Soft-skills Training Programmes were successfully organized. Under the Anandam programme, the college focuses on health, happiness, and stress-free learning. The saga continues.

Not only at the academic front but we teach our students to combat at every front of their lives. For this, the activities like blood donation camp, distribution of masks and food packets, and plantation were undertaken to serve the society.

At Subodh, we nurture students to use their inherent light to further illuminate the path of numerous people who come across their lives and thus keep the legacy alive and thriving because we believe that, "Excellence is driven by values, success is strengthened by ethics and modernity is fortified by tradition".
